

Turkey

Design Created by Pat Caputo

Make 6 wheatears using 3 different colors.
I used brown, paprika, and pumpkin, the longest strip is about 2
1/2"

Glue the wheatears together for the turkey's tail
Make a large 24" teardrop by rolling all three colors at the same
time for the body

When center of large teardrop opens, glue in a brown 12" tight
roll for body.

Make 2 large marquises (12") again rolling all three strips at the
same time.

1 Pumpkin 12" tight roll for head

2 Red 1" shaped teardrops for "wattle"

2 Pumpkin 3" teardrops for legs

2 Pumpkin 3" triangles for feet

Cut small yellow triangle for beak

Arrange as shown on wax paper or backing
